## HONDO'S TALENTED VIOLINIST

MISS IRENE SAATHOFF.

### MISS SAATHOFF IN RECITAL.

This paper is in receipt of a pro-  
gram of a Sonata Recital given at  
the Conservatory Concert Hall of  
Cincinnati Conservatory of Music in  
Cincinnati, Ohio, Monday evening,  
June 27, 1927.

In this recital, the Conservatory  
presents Misses Irene Saathoff, Chri-  
stine Robbins Williams and Evelyn  
Archer, assisted by Misses Helen  
McCormick and Virginia Hildreth.

Miss Saathoff is a graduate of Hon-  
do High School and later took her

degree at Southwestern Methodist  
University, majoring in violin music.  
She was also a pupil and associate  
instructor with Prof. Augustus C.  
Rothe of San Antonio for several  
years.

About a year ago she went to Cin-  
cinnati where she has been pursu-  
ing advanced work in violin.

The Cincinnati Conservatory was  
established in 1867, and is one of  
the country's outstanding institutions  
of advanced learning.

Miss Saathoff's friends rejoice with  
her in her continued success in her  
chosen art.

### THE TEXAS TO SHOW CHANG.

Starting Saturday, July 9, the  
Texas Theatre, San Antonio's \$2,000,-  
000 show place, will present to its  
patrons the most exciting, stupend-  
ous, amazing film ever produced. It  
is "CHANG", a mighty drama of  
the jungle, showing the eternal  
struggle of man with the forces of  
nature. "CHANG!" is not an edu-  
cational or news picture—it is a real  
melodrama, produced in the heart of  
the Northern Siam Jungles by Merian  
Cooper and Ernest Shoedsack, two  
Paramount cameramen, with the  
natives and beasts of the wilderness  
as the characters, and the locale in  
the vine-entwined heart of the forest.

"CHANG!" is the story of the life  
of a native family over a period of  
one year—their hardships, joys,  
their work, and their play. The pic-  
ture, which took eighteen months of  
labor, patience, and fearlessness to  
film, is the most marvelous and  
authentic record of the primitive  
ever put on everlasting record. How  
the cameramen managed to get some  
of the amazing shots that abound  
in this film is remarkable. For instance,  
they caught, fully, the stampede of  
500 wild elephants through a native  
village, which was swept to the  
ground. One of the cameramen was  
in a tree and the other in a pit,  
catching the elephants from above  
and below. This is the most remark-  
able bit of photography ever done  
by any man, as never before has a  
white man seen so many elephants  
in one herd.

Tiger hunts, and thrilling escape  
sequences, form an exciting element  
in the picture. In one place, a tiger  
leaps up a tree where the camera-  
men are shooting a sequence, and  
they are only saved by the quick wit  
of a native, who shoots the tiger  
just as it is sticking its head into the  
camera, snarling ferociously.

"CHANG" is avowed by New York  
papers and organs, to be the most  
astounding film ever put on the Amer-  
ican market—they are laudatory in  
their reviews of the picture, and the  
whole of the film world is honoring  
young Shoedsack and Cooper for their  
epoch making production. If you  
are in San Antonio next week, do  
not fail to see "CHANG!" at the

### TEXAS THEATRE.

And on the stage is the ever pop-  
ular Jules Buffalo, composer of  
"Thanks for the Buggy Ride," and  
his "Merry Mad" jazz orchestra.  
Jules is featuring his latest song hit  
the week of July 9—"I Can't Forget  
You", which has just been released  
by the publisher. Dancing and sing-  
ing acts fill out the "Merry Mad"  
program.

The Publix stage show for the  
week is "Memory's Garden," with  
a cast of sixteen Broadway stars.  
This production was conceived and  
staged by John Murray Anderson,  
New York's master producer. It is  
a beautiful vision of a selection of  
well known melodies staged in dreamy  
harmony of settings.

William Muth at the Texas organ,  
Public News, Comedy, cartoon, and  
scenic, fill out the Texas bill for the  
week.

### A THOROUGH POUNDING.

In his childhood days, Rev. Heineke  
received two memorable poundings:  
one from his father and the other  
from his mother. Both were deserv-  
ed and proved to be salutary (al-  
though he did not look at them as  
salutary at the time). The most  
thorough pounding he ever experienc-  
ed, however, was administered last  
Wednesday evening in his home.  
This time his wife had to "suffer"  
with him. The whole congregation  
swooped down upon the helpless vic-  
tims. Misses of every description  
and size and degree of hardness and  
softness were brought into action.  
After the twine entanglements had  
been removed, the cannonading had  
ceased, the debris cleared away, and  
the smoke of battle had receded, sev-  
eral tables piled high with staple and  
fancy groceries and other useful  
household supplies remained as the  
spoils of war. The commander-in-  
chief (we never learned who he or  
she was) planned the attack so well,  
and the army executed the plans so  
perfectly, that there was no way of  
escape,—the victory was complete,  
the "enemy" surrendered uncon-  
ditionally. The pounding was suc-  
cessful in every way. The recipients  
expressed their hearty thanks to the  
donors,—and meant it. They were  
made to feel something of the love  
that should exist between Christians  
and their pastor, and which does  
exist between St. Paul's Lutheran  
Congregation of Hondo and their  
pastor and his family. They appre-  
ciated the spirit manifested as much  
as the gifts heaped upon them.  
Here's again: "Thank you, all you  
kind people", and "God requite it."  
—H. A. H.

## Bad smashes will occur

Even the most careful drivers are liable to suffer the bad smashes that damage property and play havoc with the other man's car. A slippery road, a child stepping in front of the machine, someone else's carelessness, these and other unexpected dangers are to blame for many a serious accident.

R. W. Speece returned last week from an extended trip north, during which time he traveled over much of Kansas. He says the North is making wonderful improvements in every way. Crops are looking fine and wheat is just now being harvested, most of the work being done by combines. With one of these machines two men cut, thresh and sack the grain and scatter the straw and chaff back on the ground all with one operation.

R. W. Speece this week secured the contract for building three steel bridges across the Nueces river in Zavalla County. Each bridge will consist of a 150-foot steel span with abutments. Mr. Speece is already busy on the preliminaries and expects to begin work on the actual construction within the next thirty days.

What probably holds the record for size in watermelons brought to town this season was one weighing 67 pounds presented by Louis Fessler Wednesday to Dr. H. J. Meyer. There may be bigger ones and better ones, even in Mr. Fessler's field, but the only way to prove it to this editor is to let him try the melon. Dr. Meyer don't think that it can be beaten, but that is just the Doctor's way of hinting that he wants to help us sample it--and we don't care if he does!

Prof. W. N. Saathoff is the proud possessor of a bound copy of the San Antonio Express' recent special edition, the compliments of the Publishing Company. Mr. Eddie Bendele, who was bitten by a huge rattlesnake one day last week, had improved so much that he was moved from the hospital to the home of his aunt, Mrs. H. V. The Horger family enjoyed a reunion last Tuesday. Dr. W. T. Horger, who had been here from Corsicana visiting his cousins, Rev. and Mrs. J. T. Horger, were accompanied by them as San Antonio on their return journey. Mr. and Mrs. J. A. Horger and daughter, Miss Leona, also accompanied them. At Breckenridge Park they were joined by W. C. Horger and family of San Antonio and some other relatives from Austin. All enjoyed a pleasant day picnic together. After a day happily spent together, each family departed for their own abode and the reunion passed into a pleasant memory for all.

## DEVINE NEWSLETS.

From The Devine News.  
Working For a Needed Road West.

Some time since an effort was  
made to get a road up and down  
the Hondo, both on the east side  
and on the west side of the river,  
linking the roads which cross at the  
McAnelly and the Biry fields. These  
roads should be built as they would  
shorten the routes several miles of  
farmers living on both sides of the  
creek; and a road should be built  
from the McAnelly bridge to inter-  
sect the Yancey and Hondo road  
about the school, church, etc., at the  
Fritz Faselers place. It would give  
that neighborhood an outlet to the  
asphalted highway several miles  
nearer, than they now have to go;  
and it would shorten the route to  
Hondo for people living between the  
river and the Yancey road; and all  
back of Zigzag towards the Hondo,  
could use that road going to the  
County Seat. The News believes in  
more roads and better roads. There  
has been a big oil development and  
about twenty-five gas wells over there  
that has made these roads more needed  
than ever before.

G. W. Wiemers and L. J. Schmidt  
were in town Friday with corn in  
the ear from their farms. It was  
Mr. Wiemers first trip with corn and  
he said he had made several cents  
the bushel on bringing his corn to  
the big elevator here. Mr. Keller  
told us Friday that he had bought  
several thousand bushels of old corn  
from farmers of the Yancey com-  
munity; that he paid \$1,800 for old  
corn, Thursday.

## Laying Foundations For Three Big Engines.

The News man stopped at Wallace  
Hill, one evening this week, to see  
what all the crushed stone, sand and  
cement unloaded there could mean;  
and found the foundation laid for  
a mammoth machine plant. The  
foreman told us that three big 400  
horse power engines are to be in-  
stalled, 1,200 horse power to lift oil  
for the Humble Pipe Line Co. A  
water well, which was almost ruined  
by gas, has been sunk by Mr. Duder-  
stadt, and a big 50,000 gallon water  
tank elevated on a tower to supply  
water for the new village at Wallace  
Hill.

## From Yancey.

We had quite an influx of "homers"  
last week. Mrs. P. M. Licklider of  
Kansas City and little daughter,  
Hazel, came in Tuesday after an  
absence of about eleven years and  
are visiting Mrs. Ludie Ward. They  
will remain for a month or more.

On Thursday, Mr. Vernon Ward  
and family, of Arizona, and Mr. J.  
H. Bohmfalk and family, of Arizona,  
arrived for a four or six weeks stay  
with homefolks here. Messrs. Ward  
and Bohmfalk are employed at Bis-  
bee Mining operations. Everybody  
enjoys having these folks back here  
for a while.

Mr. Manford and brother, Claude,  
left for the Fig Canneries in East

Texas, where they have employment  
during the summer.

Mrs. Joe Burgin was very agree-  
ably surprised with a visit from her  
brother, Mr. Clarence Milam, and  
family of Eagle Pass Sunday.

For the first time in years we are  
having court in this justice precinct.  
Two Mexican Boys engaged in a  
fight Sunday and were arrested by  
Constable W. B. Ward and are be-  
ing tried for the offense at this writ-  
ing.

Mrs. Lou's Ward and children and  
Miss Rose Keel of Encinal were here  
for a short visit to Mrs. H. N. Burgin  
and family.

Mr. F. N. Bohmfalk of Hondo is  
moving back to Yancey, and is con-  
templating leaving for San Antonio  
in the near future.

Mr. P. R. Spellman spent the week-  
end with his family here. Mr. Spell-  
man is letter carrier in San Antonio.

We are very sorry to report that  
Clarence, youngest son of Mr. Fritz  
Faseler, is in a very serious condi-  
tion as a result of a boil on his face,  
which undoubtedly became infected in  
some manner. He is now at the  
Mechler Hospital where he is receiv-  
ing treatment. We hope he will soon  
recover and be able to come home.

Mr. Arthur Hardt is seriously sick  
at the home of his father near Yan-  
cey. Mrs. Hardt was called home  
from San Antonio to be at his bed-  
side.

Miss Alice Hardt arrived last week  
from Torreon, Mexico, where she  
spent the past nine months teaching.

children were visitors here for sev-  
eral days last week.

Mr. and Mrs. Buford Wilson and  
Mr. Carl Wilson attended church here  
Sunday.

Mr. Alfred Wiemers of Elstone  
Community visited friends here Sun-  
day and incidentally attended church  
services.

Jack Burgin came in from Encinal  
Thursday after an absence of two  
weeks.

Miss Esther Saathoff spent Thurs-  
day afternoon with Miss Bess Burgin.  
Mrs. W. N. Saathoff and children  
visited Mrs. John G. Bohmfalk Thurs-  
day.

Miss Louise Evans of San Antonio  
is spending her vacation with home-  
folks, after an absence of over a  
year.

Mesdames Zander and Alexander  
were shopping in Hondo Monday.

Mr. and Mrs. Earley Weekley and  
son, Earle, and daughter, Miss May-  
me, were week-end visitors with Mr.  
J. G. Weekley and family.

Everybody is busy peddling water-  
melons. A good many trucks from  
Sabinal and Uvalde can be seen pass-  
ing through daily looking for water-  
melons. They are getting to be very  
cheap. Melons weighing from 25  
to 30 pounds can be bought in the  
patch for ten or fifteen cents.

Mr. J. D. Baker and Mr. Will Har-  
ris shipped a car of melons to Bal-  
lington last week.

Mrs. W. E. Oefinger and baby re-  
turned after several weeks stay in  
Devine and San Antonio.

Mr. and Mrs. Gordon Houseworth  
of San Antonio were guests of Mrs.  
J. W. McCaughan and family Thurs-  
day.

The installation of officers of Yan-  
cey Lodge took place on Friday night.  
A barbecue was given to the families  
and friends of the order and a good  
time was had by all who attended.

## C. M. T. C. AIDS PHYSICAL "FITNESS"

Approximately two out of every  
five young men applying for accept-  
ance as students at C. M. T. Camps,  
are suffering from physical defects,  
according to records for the past six  
years.

The fact that applicants are be-  
tween the ages of seventeen and  
twenty-four lends emphasis to these  
figures.

Between these ages their vitality  
is beginning greatest, their brains  
most receptive, their bodies should  
approach perfection and they should  
be "physically prepared" for life.

Yet examining physicians find ap-  
plicants suffering from many diseases,  
from under-development to acute  
complications of the heart and in  
most cases in entire ignorance of  
their ailments.

A large proportion are rejected  
for imperfect vision, defective hear-  
ing or other minor defects, still cap-  
able of correction or cure.

These figures have attracted a great  
deal of attention recently, especially  
in the press, and the general opinion  
expressed is that the percentage of  
rejections is indicative of a not al-  
together wholesome condition.

Previous experience in the six C.  
M. T. C. campaigns has shown that,  
that out of an aggregate of 425,000  
applicants, 158,000 were enrolled in  
camps; 96,000 were acceptable but  
could not be enrolled for lack of  
room and 170,000 were unacceptable  
on account of defects, largely phys-  
ical, an average of 40%.

For this reason, in the present  
campaign in the Eighth Corps Area,  
to obtain a quota of 2700 out of  
4000 applications received, nearly  
one-third are rejected.

The Nation, as a whole, is not de-  
generating nor are we becoming  
anemic as a people. What, then, is  
the trouble?

Minor defects of the young are  
either undiscovered, ignored or un-  
corrected for while still incipient or while  
correction is possible. If not dis-  
covered and corrected, these, in many  
cases, become chronic and incurable.

C. M. T. C. assists parents to solve  
a part of this problem for four years,  
as boys accepted and attending a C.  
M. T. C. receive physical examina-  
tions, first by local doctors and later,  
in camp, by Regular Army surgeons.

Few defects, if any, escape their  
"eagle eyes." Those discovered are  
reported and corrective measures ad-  
vised.

"Physical preparedness is essential,  
not only to the comfort of the in-  
dividual, but also to the welfare of  
America as a Nation.

Healthy, outdoor exercise, taught  
in and encouraged by the C. M. T.  
C. sets a high standard for the world  
to follow.

## C. M. T. C. DEFENDS "LAND OF OPPORTUNITY"

Unfortunately, there are those who  
would have us believe that the prod-  
uct of the C. M. T. Camps is merely  
so much cannon fodder.

Attendance at these camps does  
not constitute any present or future  
contract of enlistment in the Army  
of the United States, or any other  
military obligations.

It is true that the day may come  
when every young man, C. M. T. C.  
graduate or not, will be asked to  
render military service in defense of  
his country and his home.

In such an event, such a national  
crisis, the untrained man's life is  
doubly wasted, for it is lost unneces-  
sarily and its expense is futile.

Universal peace is a noble aspira-  
tion and a condition to be devoutly  
desired, but, to date, no practical  
guarantee against war has been  
found.

Our national conscience will never  
permit the growth of "militarism."

At a C. M. T. Camp, a month's  
actual experience in wearing a uni-  
form, obeying orders without a ques-  
tion and conforming to military con-  
trol does not tend in any way toward  
the development of eagerness for  
war.

"Millions for defense, but not one  
cent for tribute," still carries weight.

For free education and other ad-  
vantages afforded the young men of  
the nation, the Nation may expect  
something in return. Surely this  
great "Land of Opportunity" is  
worth defending.

## BAPTIST MEETING CLOSED.

The protracted meeting held in  
the Baptist Church for the past two  
weeks was closed last Sunday by the  
addition of seven to the church by  
baptism.

The preaching was done by Rev.  
Kermit T. Melugin, a young man  
with only a little actual experience  
in this line, but with much practical  
experience in life. His sermons,  
which were always short and pointed,  
dealt mainly with the religion of  
Christ as confronting the civilization  
of today, and were handled with  
much ease and ability. No one who  
heard him could say that he was not  
the best young preacher that Hondo  
has ever had to stand in one of her  
various pulpits. Such was the force  
of the messages that good crowds  
were present during both services of  
the day, especially in the evening.

The song service was conducted  
by Joe Wilson, who was successful  
in building up a large choir and a  
Booster Band, composed of some 75  
boosters. The singing was a decided  
attraction to the meeting, as it should  
be. The Booster Band often showed  
its ability by singing different chor-  
uses learned at their daily practice.

All in all, the meeting was a huge  
success, many people of other de-  
nominations being present and en-  
joying the services with the Baptists.

## C. M. T. C. TRAINING.

The training given at C. M. T.  
Camps does not supplant or detract  
from academic work or from home  
and religious influences.

Hand in hand with home and  
school training, it serves:

To develop initiative, self-control,  
self-reliance;

To secure punctuality, orderliness,  
efficiency;

To give erect carriage, manly  
bearing and personality;

To develop coordination of mind  
and body;

To generate clear thinking and  
prompt action;

To promote a high personal stand-  
ard of honor.

These qualities are not attributes  
of military men only. They are also  
necessary qualifications of the suc-  
cessful, respected men in professional  
and business life everywhere.

Acquiring these qualities in the  
C. M. T. Camps, young men go out  
to their careers in the world with  
disciplined minds, carrying with  
them, into their life work, right ideals  
of citizenship and of service and  
sympathy towards their fellow men.

## IT IS NOT TOO LATE TO PLANT FEED CROPS.

There is still plenty of time to  
plant feed crops wherever the con-  
tinued wet weather this spring pre-  
vented the planting of corn at the  
usual time advises E. A. Miller, Ag-  
ronomist for the Extension Service  
of the A. & M. College of Texas.  
He further states that during years  
of low priced cotton, it is even more  
important than ever to raise sufficient  
feed and that every effort should be  
made to raise all the feed that is  
needed.

Such crops as grain sorghums, in-  
cluding Paterita, Milo, Hegari, Kafir  
and Darso may be sown as late as  
July, as emergency crops to take the  
place of corn. Even quickly matur-  
ing varieties of corn, such as the  
Sure-cropper type and June corn may  
still be planted.

To guard against blasting of grain  
sorghum heads by the sorghum  
midge, pure type seed should be used  
on account of the uniformity in  
heading; all heads which form before  
the main crop should be cut off. The  
seed should also be planted at least  
300 yards away from sweet sorghum,  
and Johnson grass should be kept  
down.

Sudan grass, Red Top sorghum,  
cow peas and millet are other good  
feed crops to grow. Sudan grass  
furnishes excellent grazing when  
planted in 3 ft. rows at the rate of  
10 to 15 lbs. per acre and will be  
ready to cut for hay in from six to  
eight weeks. A good combination is  
Sudan grass for grazing and Red Top  
sorghum for hay.

Millet such as German millet is  
also a quick maturing crop and is  
fairly drought resistant. Millet  
should be cut for hay right after  
blooming and should not be allowed  
to go to seed, especially when it is  
to be fed to horses and mules. It is  
best to sow the seed broadcast at  
the rate of about 30 lbs. per acre.

More cow peas should be grown,  
as they make excellent hay when  
properly cured, being almost equal  
to alfalfa in feed value. They can  
also be used for grazing or be plowed  
under for building up soil fertility.  
Some of the best varieties are the  
Groit, New Era, Brabham, Whip-  
Poor-Will and Chinese Red. The  
black-eyed pea is a good variety for  
table use. Soy beans and Mung  
beans are also good summer legumes,  
but unfortunately Soy beans are often  
badly damaged by rabbits as rabbits  
are very fond of these young plants.  
Mung beans are valuable because they  
can stand a great deal of dry weather.  
Velvet beans are recommended only  
for East Texas as they require a  
good deal of summer rain.

## AMONG THE DRILLERS.

Western Gas and Fuel and Medina  
Syndicate's No. 3 Chandler in the  
Adams field in Medina County is  
drilling at 20 feet and on a hard  
rock, making progress very slow at  
this stage.—Wednesday's Express.

California-Medina's No. 1 Rothe  
and Switzer's No. 1 Zerr, both in  
Medina County and north of the  
Southern Pacific tracks, are down the  
first at about 3,160 and the second  
at about 3,150 feet. The Zerr test  
is drilling and the Rothe test has  
casing parted which it is trying to  
get out of the hole. Each has been  
in a formation for some time that  
is said to resemble Pennsylvanian.—
